

## USB MIDI CONTROLLER INTRODUCTION

This is an ultra-compact MIDI controller which serves to control music software. It is equipped with 16 velocity-sensitive drum pads as well as 8 faders and 5 rotary controls.

The controller connects both PC and Mac(OTG convertor cable is required for connecting to Mobile phone and Pad). You can do without a bulky power adapter as power supply is via the USB bus.

It's also available to download the full user manual and other setting instructions from <http://en.worldde.com.cn/>.

## 2 STEPS FOR PANDA200 TO WORK

- 1) Connect your PANDA200 to the computer by USB cable.
- 2) Open your DAW in your computer and select PANDA200 as your hardware controller in your DAW. Now you are ready to go.

## CONNECTING A COMPUTER

Use the included USB cable to connect the USB MIDI controller to a USB2.0 port on your computer. The power will turn on. Select the PANDA200 as MIDI controller within your music software and you are ready to go.

## DEVICE SETUP IN SOFTWARE

To select PANDA200 as a controller for your digital audio workstation (DAW):

1. Connect PANDA200 to your computer using a standard USB cable. (If you are connecting PANDA200 to a USB hub, make sure it is a powered hub. If another device with USB3.0 is connected to USB hub at the same time, PANDA200 will not work properly at this time.)
2. Open your DAW.
3. Open your DAW's Preferences, Options, or Device Setup, select PANDA200 as your hardware controller, and then close that window. Your PANDA200 is now able to communicate with your software.

For more info of mapping setting of PANDA200 to DAW, please visit the download page of <http://en.worldde.com.cn/>

## SYSTEM REQUIREMENTS

Windows 10/8/7/XP/Vista

Mac OS X 10.3.9 and better

All information is subject to change without prior notice.

**Important: Visit [worldde.com.cn](http://en.worldde.com.cn/) to download the complete User Guide and Software application Mapping Setting Instructions.**

## TROUBLESHOOTING

PROBLEM	CAUSE	SOLUTION
The LCD display does not light up	No power	Please make sure that the PANDA200 is connected to your computer by the USB cable and the computer is powered on. Sometimes change another USB cable or computer is needed to make sure if the USB cable is working fine.
No sound from PANDA200	The PANDA200 is a MIDI-controller, which means that it does not contain any sounds inside.	Please make sure that the PANDA200 is connected to your computer or hardware sound module.
No sound from target device	PANDA200 is not properly connected.	Check your computer's USB connection to confirm that the PANDA200 is recognized. If necessary, replug the connection and restart your computer.
	PANDA200 connected after software application has started.	If controlling an external hardware module, make sure that the PANDA200's MIDI OUT is connected to the device's MIDI IN port.
	Problem is caused by use of a USB hub.	Unplug the PANDA200 from the USB hub and connect directly to your computer.
	Software application not set to receive MIDI data from the PANDA200.	Ensure that the PANDA200 or "USB" MIDI device is listed as an active MIDI source in your application. Usually, the MIDI settings can be accessed through the application's Preferences menu.
	PANDA200'S MIDI channel is not the same as application's incoming MIDI channel.	Make sure that the PANDA200 is sending MIDI information on the channel that the target device expects.
Pads/Knobs/Sliders not work	Pads/Knobs/Sliders not set to mapping to your DAW	Please make sure you have set the PANDA200 to mapping to your DAW manually. For more mapping info please visit the download page of WORLDE website.
Drivers fail to install	Computer's got some problem on USB port	PANDA200 is driver free device, so basically no driver is required for this device. Please try to use the PANDA200 on another USB port or even on another computer.
PANDA200 fails to connect to computer	Fail to connect to computer	Check your computer's USB connection to confirm that the PANDA200 is recognized.
PANDA200 is not working properly with Software applications	Mapping Settings for PANDA200 to Software application is not finished.	The PANDA200 is compatible with any software(Such as Cubase, FL Studio, Bitwig, Ableton Live, Studio One, Nuendo, Protocols, Logic Pro, Analog Lab and so on) which supports the MIDI protocol. Please consult your specific hardware or software device's documentation for instructions on enabling the PANDA200 as a MIDI input device.
